

“Soldiers Past and Present – America Honor Your Veterans”

Ever since our country was born we have fought many wars. Some of the soldiers after the wars they fought for our country they have become Presidents of the United States. And some have had movies and books written about them. In the war of Independence, General George Washington led us to victory and became our first President of the United States. Ulysses Grant fought in the Civil War and later became our President. John F. Kennedy fought in World War II and became our President. Dwight D. Eisenhower was a general in World War II and became a President. Other famous soldiers were George Patton and Douglas MacArthur. My Great-Great-Grandfather was in World War I. And my Great-Grandfather was in World War II. They were heroes for our country and they still are to me. But it is important to remember that any person who has ever served our country is very important and is a hero. And the reason they are heroes is because they have risked their lives for us and country. They leave their homes and families and some leave our country and go to a foreign land and fight. We should thank our soldiers past and present everyday for what they did for our country and for keeping America free.
