

TRIANGLE FRATERNITY

STEM Scholarships and Lower Housing Costs!

March 27, 2024

Dear School Councilor,

The financial challenge faced by most students striving toward a higher education is well understood. We would like to help!

This year we plan to give out more than \$2,000 in scholarships to women and men who plan to pursue a higher education in STEM fields. They are eligible if they have enrolled at the University of Nebraska-Lincoln for the Fall 2024 Semester. The scholarships are thru the generosity of several of our UNL alumni and awarded in July. The top scholarship is \$1400, and there are several smaller amounts. Interviews will begin in April. Joining our fraternity is not required to receive a scholarship. The application deadline is June 12th.

We can also save your men many thousands of dollars over their academic career. Men living at Triangle pay substantially less than the lowest priced UNL Housing by living at our fraternity house near the center of campus. Our residence is a family-like learning community and offers many advantages because we are all STEM majors. In order to qualify for a scholarship, a student must have a declared major in Engineering, Architecture, or the Sciences (including majors in Chemistry, Physics, Computer Science, Mathematics, and many other related fields).

Please pass this scholarship opportunity to your graduating seniors going to UNL in STEM. To apply for a scholarship, they may go to TriangleUNL.org and select "Scholarship."

For information about Triangle, please have students email Info.Request@TriangleUNL.org with their name, contact info and school. They will then receive an automatic email reply containing a link to a secure online request form. They may also call or email me.

Sincerely,

Bradley N. Keller
Scholarship Coordinator
