June 30, 2026

Wahoo Public Schools Community,

Our Wahoo Public Schools takes pride in supporting the needs of the whole child, and to ensure that all children are safe, supported, engaged, and challenged each school day. Research indicates that initiatives focused on improving aspects of students' well-being in schools — such as addressing childhood obesity, preventing bullying, supporting students mental health, and restricting use of exclusionary discipline — have been found to be successful in improving student success and academic excellence. We have assessed our wellness policy as part of the USDA requirements. Below are the results of our assessment.

In evaluation of the district's wellness policy, it has been determined that the policy includes all necessary language to be compliant with USDA requirements.

In reviewing the policy and progress towards goals, it was determined that the district does very well in offering healthy opportunities for students through curricular and extracurricular activities. The district will continue to strive toward providing a variety of food offerings through the breakfast and lunch programs.
